

Visa Ukraine Interchange Reimbursement Fees¹

Effective 23 August 2025, the following by default interchange rates apply to domestic purchase transactions processed through Visa. These domestic interchange rates are applicable for Visa branded consumer cards issued in Ukraine and used at merchants that are acquired in Ukraine. Visa uses interchange reimbursement fees as transfer fees between issuers and acquirers to balance and grow the payment system for the benefit of all participants in the market. Merchants do not pay interchange reimbursement fees; merchants pay a "merchant discount rate" to their acquirer for variety of processing services provided by the respective financial institution and interchange may only be one component of their overall merchant discount rate.
